

EXPLORE STEM CAREER PATHWAYS

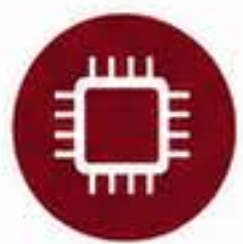

THROUGH ON-SITE LAB TOURS

Lorain County Community College is excited to offer an opportunity to explore STEM careers firsthand through guided, on-site lab tours. Participants can experience cutting-edge learning environments, including the microelectronics lab, cleanroom, automation labs, and other advanced technology spaces.

These tours provide valuable exposure to in-demand career pathways and the real-world applications of STEM education. If you or your students are interested in participating, we would be happy to help coordinate and connect you to this opportunity.

We offer tours of our state-of-the-art facilities, including multiple solder labs, a Class 10,000 cleanroom for semiconductor manufacturing, a high-volume SMT manufacturing line, and computer labs for design and drafting.

INTERESTED IN SCHEDULING A TOUR OR LEARNING MORE?

Contact us to get connected and start planning your visit. We'd be happy to coordinate the details and help you take advantage of this unique opportunity.
